Game Reviewer Quote:

Jessica Blair "We played the game with a very diverse group of people, and we all had a blast!"

To this day CONVERSATION is the most human and humanizing thing we can do. Today's way of communicating thru social media, messaging, etc. is not even close to real face to face CONVERSATION. In Blocker, players focus on the art of conversation using prompts from the cards to interact back and forth with the other players in a fun, relaxed social setting.
